

## CLC February Board Report

As we start term 2 at CLC we have started exploring the different options for post secondary. Students had a visit to University Of British Columbia Okanagan Campus. Students were given a tour of the campus and a short Presentation by the Indigenous Student Advisor, showing them all of the services, they are able to access as an indigenous student.

Our student Kayla hopes to go to school for nursing and was very excited to see the UBCO nursing labs.

We have also checked out the local Nicola Valley Museum, checking out some of Merritts history, and looking at the James Tate exhibition.
