

# Indigenous Student Advocates Report

April 2026

Good day. Hope all is well. This past month Veronica and I have been busy within the classrooms. We put on Noon Hour activities over lunch time and have been trying out Hoop Dancing and Apple Dehydrating.

This past month we have been open to all students who want to come in, connect, and work on their Beading Project for Ms. Smith Class.

We have Lani and Crystal coming on Wednesdays for Drum Club and have been practicing about 5 songs every time we gather.

Nicola Canford had the privilege of having NHL Player Jason Simon come and do a presentation for the Intermediate classes.

The Grade 6 Student from Nicola Canford met at Central Elementary to participate in the Traditional Games. All the students had so much fun. It's good to see them laughing and smiling.

I am offering afterschool Taekwondo to students who are waiting for the bus with Master Abbott.

I have invited the local Nurse into our afterschool group to come talk about health, wellness, nutrition.
