September 2026

September was a very eventful month for students. New students were welcomed into the school community and spent time building connections with staff and classmates. For Orange Shirt Day, Jay, a hoop dancer, visited the school to share a performance with students. In Division 1, Grade 6/7 students took part in the Blanket Exercise and shared the learning with the whole school. Students in K–7 also created orange hearts filled with fluff and medicines, including sage, juniper, and buffalo sage. The Intermediate class went tea picking with Hank at Sunset Main, while the Primary class went mushroom picking near Sunshine Valley. Students also participated in the Terry Fox Run to Smith Pioneer Park, and a reading group has started to support student learning.
